

# EPCC Minutes

October 16, 2007

---

The following changes were determined through email. The meeting of October 16 was cancelled but the following item was approved via email.

The only issues were the 2 CS courses that Richard Croft proposed for changes: Take CS 140 out altogether and change CS 309 to AEH. Everyone so far has been ok with those changes so I think we're ok with them going forward. (per Colleen Johnson email).
