  - ECON 345 – APPROVED
  - POLS 440 – APPROVED
  - BA 354 – NOT APPROVED (needs to be routed through college of business first)
3. Military Science – Changing courses to meet the new ROTC (Gold program) guidelines. Make sure course catalog descriptions get inserted for these courses. Carolyn is not viewing as a need to delete course but just change the course description, credit, and title. 80% same course content, just title changes – still teaching military science with new military science guidelines. Agreed that the content looks okay but revised catalog language will be developed working with the Registrar.
