

# EPCC Minutes

September 29, 2009

---

Attending:

Darren Dutto	Ray Brown
Michael Jaeger	Tony Tovar
Mike Pierce	Sarah Witte
Kenn Wheeler	

Discussion:

1. Michael gives the charge – a hard copy memo was sent to Darren.

- University Learning Objectives. Try to understand they will be changing/evolving. We need something in place, it isn't perfect. Approve a working copy with a cycle of assessment and expect change.
- GEC Rubric- Inquiry, communication, critical thinking, civic engagement, content, breadth. He recommends we remove content and breadth. EPCC should establish a cycle for review to make sure the rubrics are working.
- Breadth rubric – use as an expanded definition to make sure the course meets the category
- Breadth and content – Move rubrics to program assessment rather than GEC
- Review Gen Ed courses and make sure they meet the outcomes

2. Sarah to work with Angie to update Gen Ed Assessment Plan.
