### Change in existing course/catalog entry ENG/WR

Change in existing course/catalog entry ENG/WR - decision postponed until 1/16/07 (missing documents)

## Discussion items:

1. Jay VanTassell explained why GEOL courses were not being flagged for New Gen Ed credit. The courses don't carry the scientific characteristic required by the New Gen Ed; and the lower level classes don't have the rigor that the upper level course work carries.
2. EPCC members discussed the remaining x10 classes that haven't been converted.
