Decision items:

1. GEN Ed Matrix – Updated an approved. All current GE courses were plugged into the “Gen Ed Core”.
2. The name “General Education Core” was selected for the revised Gen Ed. The implementation date will also accompany published material.

Discussion items:

1. Will all students automatically convert to the new general education? No, not possible. It is suggested that students be encouraged to convert but not be required. Students should select the Gen Ed version that best suits them.
2. It was suggested to move all the speech courses into the AH category and add a requirement that students must take classes from at least 6 different prefixes from the “General Education Core”.
3. It was suggested that the 2 + 2 math classes be available to meet the math graduation requirement.
